Certifications

Autodesk Structural Robot R.C.C Villa Design in UAE

BIM-Graphic Presentation & Design in Revit-From Zero

Provisional Certificate

Chat GPT and Professional Integrity

Productivity Tools & Techniques

Muhammad Nauman Jawad

Civil/Structure Engineer | R.C.C & Steel Structural Designer | BIM Structural Engineer
Lahore, Punjab, Pakistan

Summary

I want to enhance my abilities by working with a dynamic and professional team in a reputable organization that utilizes my skills, knowledge, and experience as well as provides me with an opportunity to work and excel.

Working in Field related to:

1. Design & Detailing of residential and Commercial buildings. (Steel)
2. BIM Modelling.

Hand on experience of:

1. American Code for Design of Structures (ACI & AISC).
3. Structure Modelling using Autodesk Revit.
4. Estimation of Civil works using Revu Bluebeam & Excel.

Experience

Canam Steel Corporation

BIM Structure Engineer

June 2023 - Present (3 years 3 months)

Lahore, Punjab, Pakistan

- Interpreted contract drawings to extract steel joist and joist girder designations, and performed structural analysis using ASCE 7-05, AISC, and SJI standards, fully integrated into a BIM workflow.
- Designed steel joists by incorporating complete load conditions—live, dead, RTUs, snow drift, and net uplift using specialized joist design software to ensure performance and code compliance.
- Created accurate, data-rich Revit models of joists and joist girders aligned with LOD 350+ standards to support detailing, fabrication, and coordination.
- Generated shop drawings and fabrication documents directly from the Revit model, ensuring consistency and minimizing manual errors in downstream processes.

- Collaborated closely with general contractors, architects, and MEP/structural teams to ensure model alignment, resolve design conflicts, and support efficient construction planning.
- Contributed to interdisciplinary model coordination and proactive identification of design issues, helping maintain smooth project workflows and reducing on-site rework.
- Maintained model accuracy throughout design iterations, ensuring alignment with construction documentation and project deliverables.

Crimson Engineering Pvt. Ltd.
 Steel Structure Engineer
 August 2022 - June 2023 (11 months)
 Lahore District, Punjab, Pakistan

- Analysis and Design of PEB Structures using American codes like ASCE 7-16 & AISC360-16.
- Steel Connection Design.
- Modelling of the structure in Revit and preparation of erection drawings.

WESTCON Construction (Pvt.) Ltd.
 Site Engineer
 July 2021 - August 2021 (2 months)
 Lahore, Punjab, Pakistan

- Study of Structural Drawings.
- Preparation of Bar Bending Schedules.
- Layout & Levelling of Structures.

WESTCON Construction (Pvt.) Ltd.
 Site Engineer
 July 2020 - September 2020 (3 months)
 Lahore, Punjab, Pakistan

- Supervision while concreting structures.
- Fixation of steel reinforcement.
- Fixation of formwork.

Education

University of Engineering and Technology, Lahore
 Master's degree, Integrated Building Design · (September 2022 - April 2025)

The University of Lahore

Bachelor's of Science , Civil Engineering · (September 2018 - August 2022)

Punjab Group of Colleges

F.S.c , Pre. Engineering · (September 2016 - September 2018)

Unique Group of Institute

Matriculation, Science · (January 2014 - July 2016)
